

PEOPLE SCREENING

Hands-Off Screening

Quick and Effective

Privacy Protection

High Resolution Imaging

The **Rapiscan Secure 1000®** is the most effective people screening solution available. The system produces high resolution images that enable the operator to easily identify concealed threat and contraband items. The **Rapiscan Secure 1000** is ideal for high security environments because both organic (e.g. explosives, narcotics, ceramic weapons) and inorganic (e.g. metal) materials are apparent in the image.

Rapiscan Systems has developed advanced techniques to protect the privacy of the person being screened while enabling effective detection of threat items. In a recent study, 19 out of 20 persons preferred a Secure 1000 scan to an invasive pat-down physical search. The system is completely safe for all persons and exceeds the requirements of health authorities worldwide.

The dependable **Rapiscan Secure 1000** is easy to use and is the most widely deployed image-based people screening solution.

HOW SECURE 1000 TECHNOLOGY WORKS

A Backscatter image is produced as a result of Compton Scattering. When the emitted beam contacts organic materials, it is "scattered back" toward the system. The information is received by high resolution detectors and passed to advanced image processing software to display both organic and inorganic materials to the operator while protecting the privacy of the person being screened.

FEATURES & OPTIONS

The **Rapiscan Secure 1000®** incorporates design improvements that resulted from a deployment of the system at London Heathrow Airport. The Secure 1000 is the first backscatter personnel screening solution to be deployed in the civil aviation environment.

SPECIFICATIONS	
Regulatory Compliance & Safety	The Rapiscan Secure 1000 [®] complies with the applicable FDA requirements and ANSI Standards. The FDA has classified the Rapiscan Secure 1000 as a device under Section 201(h) of the Federal Food Drug and Cosmetic Act (FFDCA) and the safety of the product is addressed by the provisions of Subchapter C – Electronic Product Radiation Control. The Rapiscan Secure 1000 has been assigned the FDA Succession number 9110663-03. The ANSI Standard is N43.17 and is titled “Radiation Safety for Personnel Screening Systems Using X-ray”.
CE Compliant	Yes
Image Acquisition	Scan rate: Less than 8 seconds per view Display: 17 inch high-resolution color monitor Emission Per Scan: Less than 10 microRem per exam
Power Specifications	115V systems: 115V single phase, 60Hz, 12 Amps 230V Systems: 220-240V single phase, 50/60Hz, 6 Amps
Operating Environment	Storage Temperature: 0°C to 50°C Operating Temperature: 0°C to 40°C Relative Humidity: 5 to 95% non-condensing
Physical Details	Floor Space: 6.6 ft. wide x 8.8 ft. length (2001 x 2691 mm) in front Overhead Clearance: 80 in. (204 cm) minimum Unit Weight: 1097 pounds (499 kilograms) Physical Dimensions: 50 in. wide x 37 in. deep x 85 in. high (1261 x 951 x 2184 mm)
Warranty	One (1) year

X-RAY COMPARISONS

The following are some of the typical exposure levels that can be experienced with other types of X-ray systems and some naturally occurring sources:

Medical

CT (CAT Scan): Up to 1,000,000 microRem
Chest, Mammography: Up to 10,000 microRem

Background Radiation

Denver (5000 ft): Up to 600 microRem per day
Miami (sea level): Up to 300 microRem per day
Inside vs. outside a building: Up to 25 microRem per day

Airline Passenger Dose

One hour flight: Up to 500 microRem per hour

Rapiscan Secure 1000[®]

Less than 10 microRem per exam

CUSTOMER SUPPORT SERVICES: Our team is dedicated to providing a prompt, effective and personalized response that exceeds your expectations. With spare parts inventory and skilled technicians all over the world, you can be certain Rapiscan Systems will always be prepared with a solution to address your requirements. By measuring response time, parts delivery and support status, our team embraces a customer centric philosophy to ensure continual improvement of our products and services.

With continual development of our products Rapiscan Systems reserves the right to amend specifications without notice.
